## Customer Reviews

This book was really helpful in understanding the Zone Diet so I could decide if it would be right for

me. I liked that the book has lists of what to eat, what to avoid, what to have only a little of, and precautions. This was one of the most helpful parts of the books for me. When I ask myself the question - "Can I eat this?" - I should be able to easily know the answer quickly based on the lists. The 7 Day Meal Plan with recipes was excellent. The recipes are easy to read and prepare and they sounded delicious. I'm going to make some of these recipes even if I don't do the diet. The recipes don't sound like diet food at all. I really, really love that. I'm not going to eat food that tastes bad just because it's on my diet. I recommend this book if you want to learn about the Zone Diet or if you're looking for information to help you get started. I also recommend it if you're looking for some really good recipes and a meal plan. This book is very helpful.

The Zone Diet is the perfect diet for me. You can lose weight while eating Chicken Quesadillas for breakfast. Count me in. I have been hearing about this diet for a while now. I never really understood how it worked until I read this book by AJ Parker. The author does a great job of explaining the diet and its benefits. And they have added a menu with recipes that make my mouth water. Definitely a must read.
