It doesn't have many patterns. And those are dependent on finding very specific items for completion. Essentially there are two techniques in the book (the pumpkin and a wreath) and one kind of bow, but adding more colors or more loops to increase size. Save yourself the money and just watch you tube.

It has some interesting ideas and demonstrates them well. I would recommend if you are interested in making deco mesh wreaths.

This book was very easy to understand and use and I made my first Christmas wreath and gave it

away at a party everyone loved it and it sure did not cost me eighty five dollars to do it. Now I have orders for three more! Relaxing and enjoy doing it.
