Customer Reviews

If I were just to write "Stinkin' adorable" I think it would sum up this review. But, since the point of a review is to inform the next buyer, here are my points: It's well made. The materials used to make this a "board" book are superb, much better than many of the other board books we own. It's visually appealing and imaginative on every page. If you feel stumped about how to teach your child the world of independent dressing, this little gem would be helpful. Anyhow, definitely no regrets buying this one!

This is a cute book, perfect for little ones. Both our 17 month old, and our four year old love this, as well as the other books by Caroline Jayne Church we have purchased. The writing is simple enough

for beginning readers and the illustrations are cute and fun. We plan on purchasing more by this author.

Reading is always in fashion! Or that is what the back of this book states and I agree. Caroline Jayne Church has some amazing books - some of our family favorites that our children have gone back to over and over again to read. The illustrations by Church have a similar feel and look. But in this tabbed board book, there is a flap with a reveal on every page that follows the stages of getting dressed from underwear to shoes. It is a wonderful new book by an amazing author and illustrator.

My boy-girl twins love this book, it's been a favorite since they were 9 months old and now they're nearly 2. When they're fussy while putting on clothes, I'll quote the book and they quiet right down!

Wonderful story about getting dressed from underpants to shoes. My son loves to flip the flaps on each page to see what they are putting on. It is a great book. It arrived on time and in great condition.

Even at the very young age of 6 months, our granddaughter likes this book and her Mom and Dad like it too. They read it to her almost every day! When she's able, she be dressing herself by what she learned in the book!

Adorable book. I read it (short easy read) before gifting to a friend to give to her youngest, who was now a big brother. If this brief review was helpful, please let me know with the voting buttons below. Thanks!

The rhymes are cute, my son likes the illustrations, and I'm hoping this will help teach him to dress himself. I like the tab format. Would buy again.
